

Designed to pull cables or wires through walls, floors, and ceilings, this cable pulling rod is perfect for pulling cable without requiring sheath stripping. This rod also features the following:

- Pushes wires through old holes that could be partially blocked
- Stiff rod makes it easy to manipulate wire and cable through walls
- Screw end can be used to mark holes for drilling
- Hole in end of rod can be used for smaller wire pulling, without needing to use the screw
- Powder coated for greater protection
- Lifetime Warranty
